

Princess Alice

and the

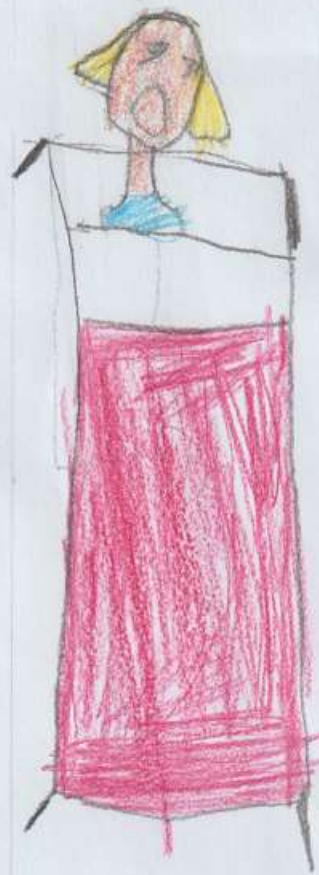

Fossil Hunting competition

By Theodora

Princess Alice was in Year One  
at Abolyn Lodge School by the  
Sea. One day the teacher announced  
that there was going to be  
a fossil hunting competition.  
As she was a brave and adventurous girl  
Princess Alice was very excited about this.

After lunch, the teacher introduced the class to a new girl whose name was Jane. Alice was a bit suspicious about Jane because she noticed that she always wore her top hat even in bed at night!

When the fossil competition started Alice was determined to find the most exciting fossil. Alice worked really hard all week until, finally she uncovered a dinosaur fossil! Suddenly Jane jumped out from behind the cliffs and...

takes off her top hat  
and reveals a third eye  
on her head. Jane says  
she is going to take the  
dinosaur back to her home  
planet and keep it as a  
pet.

Alice says, "NO! You can't do that!" She starts to dig the end in a sawr out from the cliff, but Jane uses her web blaster to make a sticky web which sticks Alice to the cliffs.

# Hooked Duck

Alice uses her trowel to cut herself free and quickly climbs up to the funfair on top of the cliffs. She wins hook-a-duck and asks for a goldfish as a prize.

She takes the gold fish back down to the beach and offers Tanea a swap. A gold fish is a much better pet than a dinosaur. Tanea happily says yes leaving the dinosaur fossil behind. She zooms back to her home planet.

Alice shows the dinosaur fossil to her teacher and wins the competition. Hurra y!

Princess Alice was at school

and there was another girl. can she

find out a secret?
