

A race? How exciting!
But who's that on the
starting line?

The small one is a snail
and the cheeky looking
one is a cheetah.

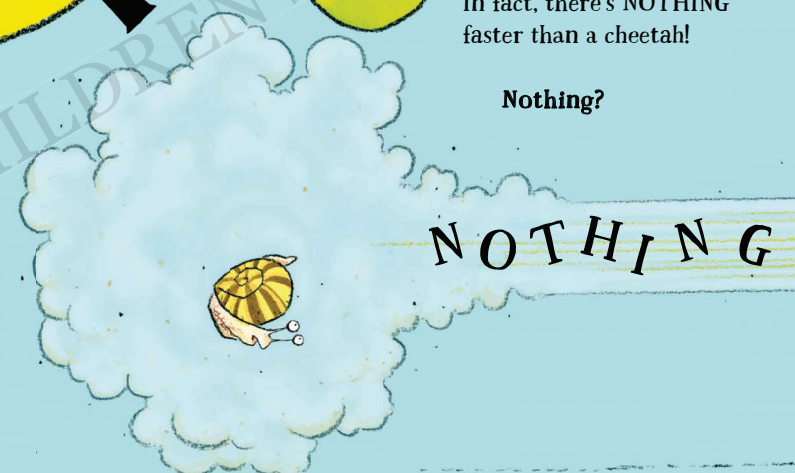

But don't get too excited.

Snails are *too* slow to
chase cheetahs.

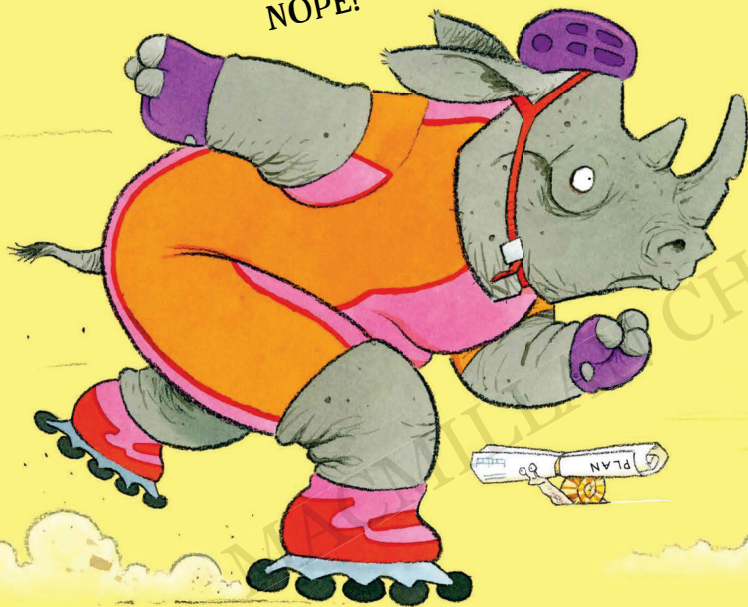

In fact, there's **NOTHING**
faster than a cheetah!

Nothing?

Not a rhino on roller-skates?

NOPE!

Penguins on pogo sticks?

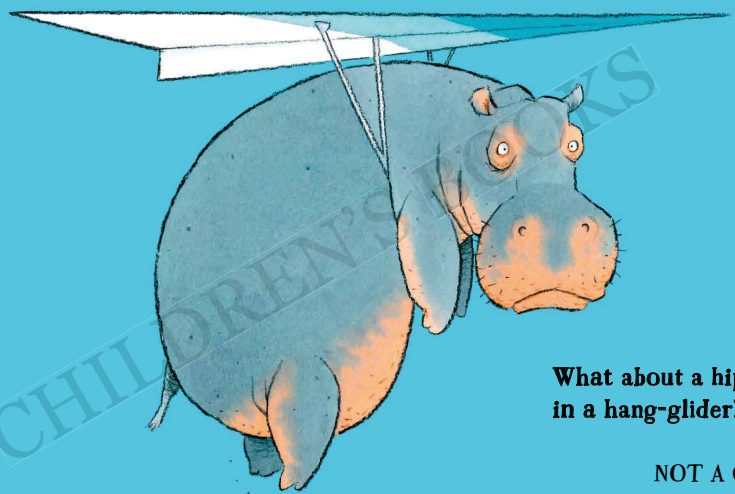

NO WAY!

A buffalo on a bicycle?

SORRY.

**What about a hippo
in a hang-glider?**

NOT A CHANCE.
