

The background is a dark, textured black space filled with numerous small white dots representing distant stars. Scattered throughout are various colorful celestial bodies: stars in shades of red, orange, yellow, green, blue, and pink, some with multi-pointed or starburst patterns. There are also several circular planets or moons in different colors, including blue, green, yellow, and red, some with patterns or textures. The overall effect is a vibrant and diverse representation of the universe.

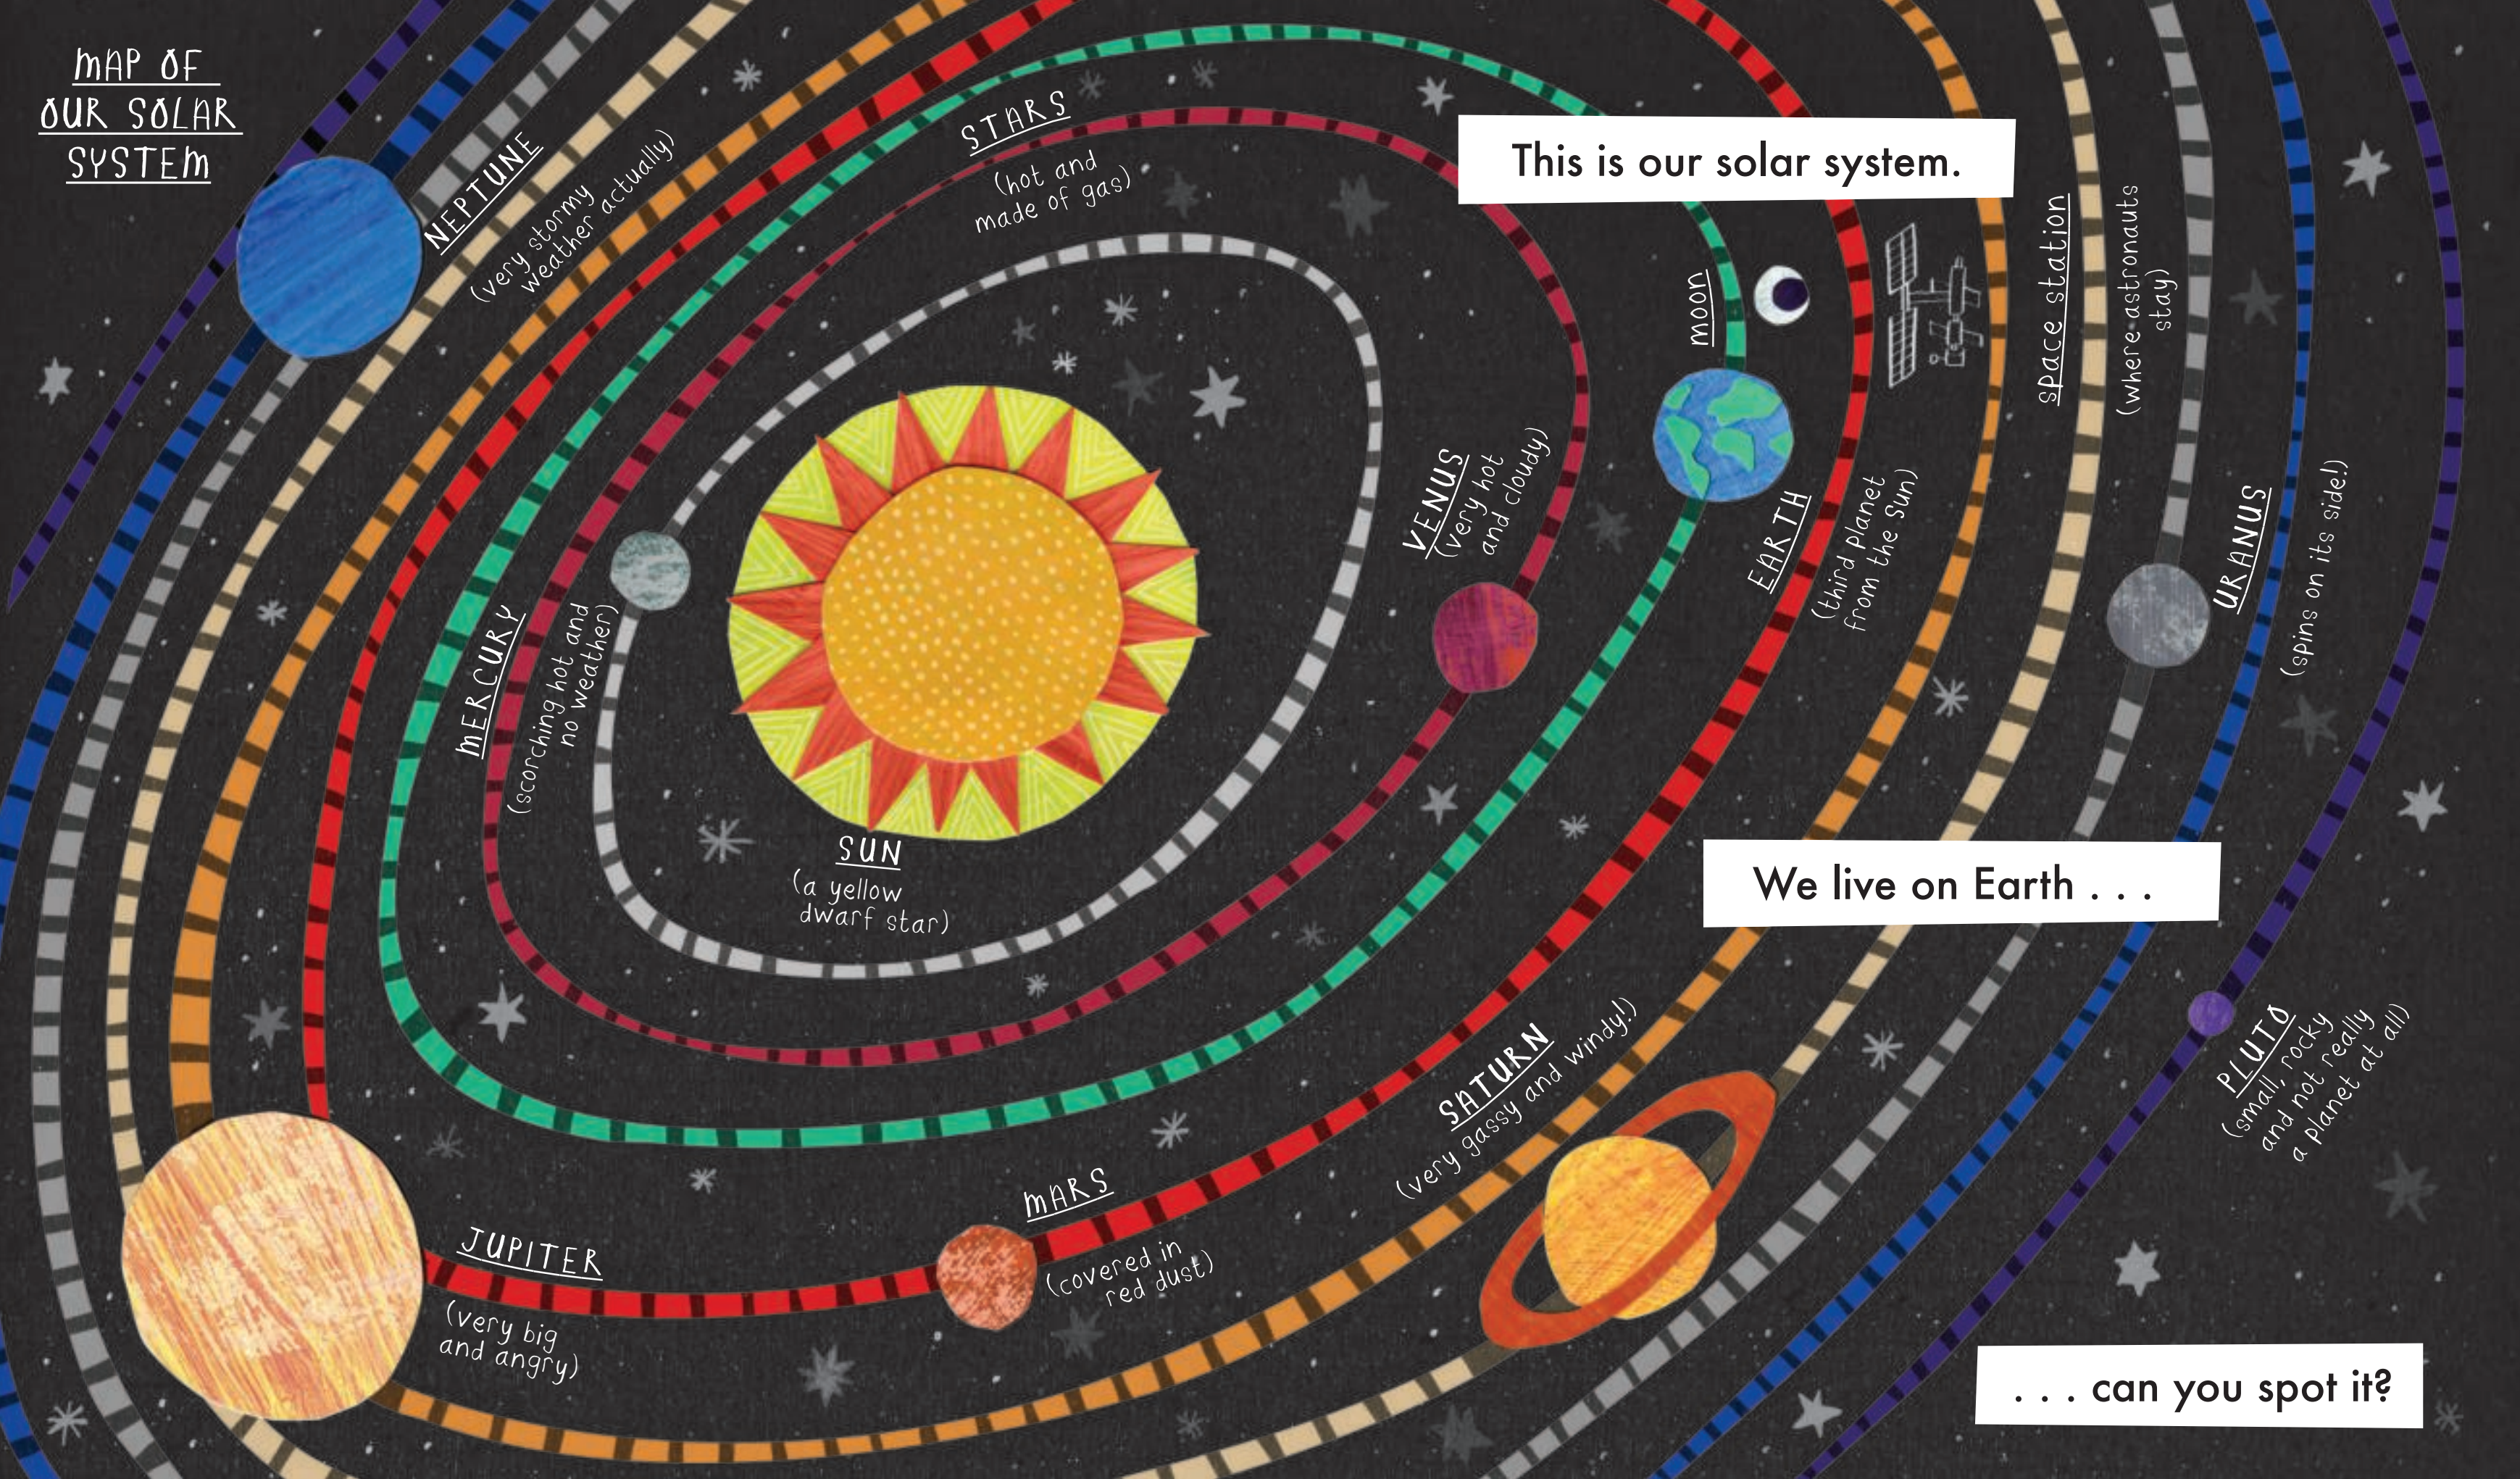

Hello universe!

I am in here somewhere,

but you can't see me

as I'm really tiny.

MAP OF  
OUR SOLAR  
SYSTEM

STARS  
(hot and made of gas)

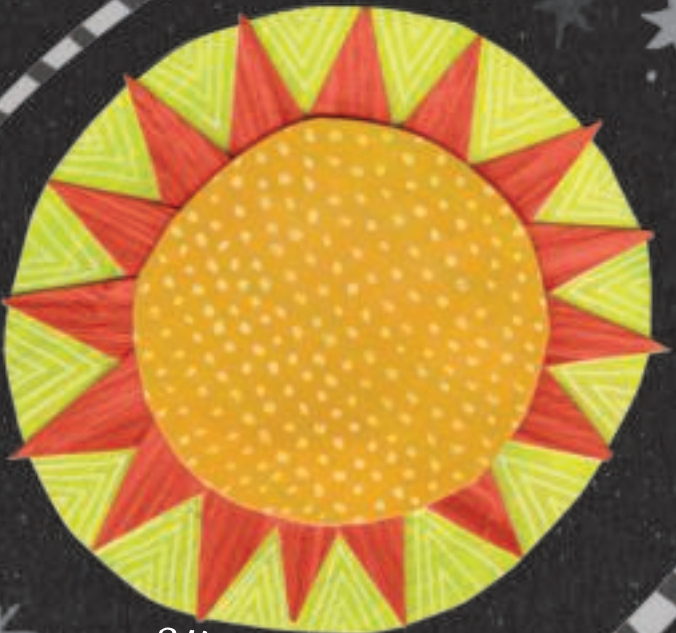

This is our solar system.

NEPTUNE  
(very stormy weather actually)

MOON

space station  
(where astronauts stay)

SUN  
(a yellow dwarf star)

VENUS  
(very hot and cloudy)

EARTH  
(third planet from the Sun)

MERCURY  
(scorching hot and no weather)

URANUS  
(spins on its side!)

We live on Earth . . .

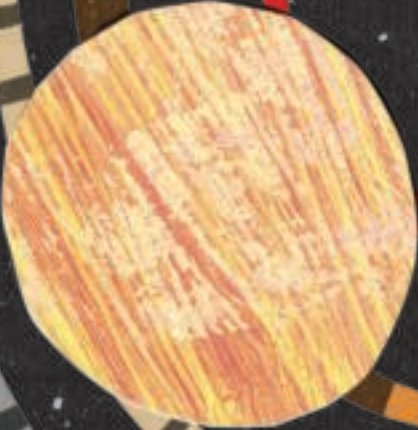

SATURN  
(very gassy and windy!)

MARS  
(covered in red dust)

JUPITER  
(very big and angry)

PLUTO  
(small, rocky and not really a planet at all)

. . . can you spot it?

The Arctic

# MAP OF OUR PLANET EARTH

Arctic Ocean

Arctic fox

lynx cat

5

panda

crane

\* note this map has been flattened out so we can see everything, as the real earth is a sphere

brown bear

tiger

orangutan

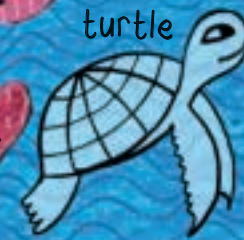

cockatoo

Pacific Ocean

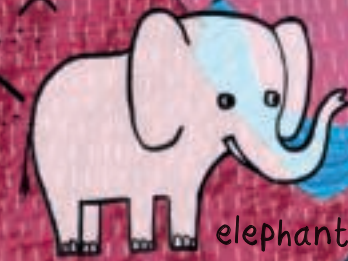

Northern Hemisphere

Southern Hemisphere

Indian Ocean

turtle

elephant

mount kilimanjaro

zebra

Sahara Desent

tuna

toucan

rainforest

EQUATOR LINE

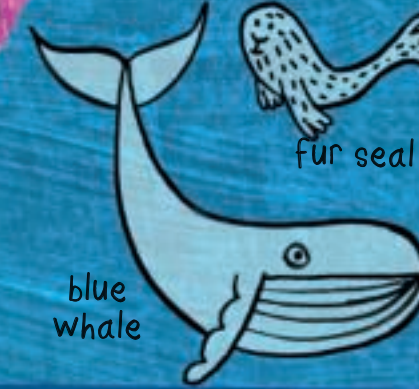

Atlantic Ocean

sloth

volcano

poison dart frog

blue whale

fur seal

4

Table mountain

dolphin

great white shark

Uluru

koala

(and other really interesting stuff).

penguins

7

Southern Ocean

Pacific Ocean

Rocky mountains

grizzly bear

moose

polar bear

grey seal

snowy owl

3

badger

beluga whale

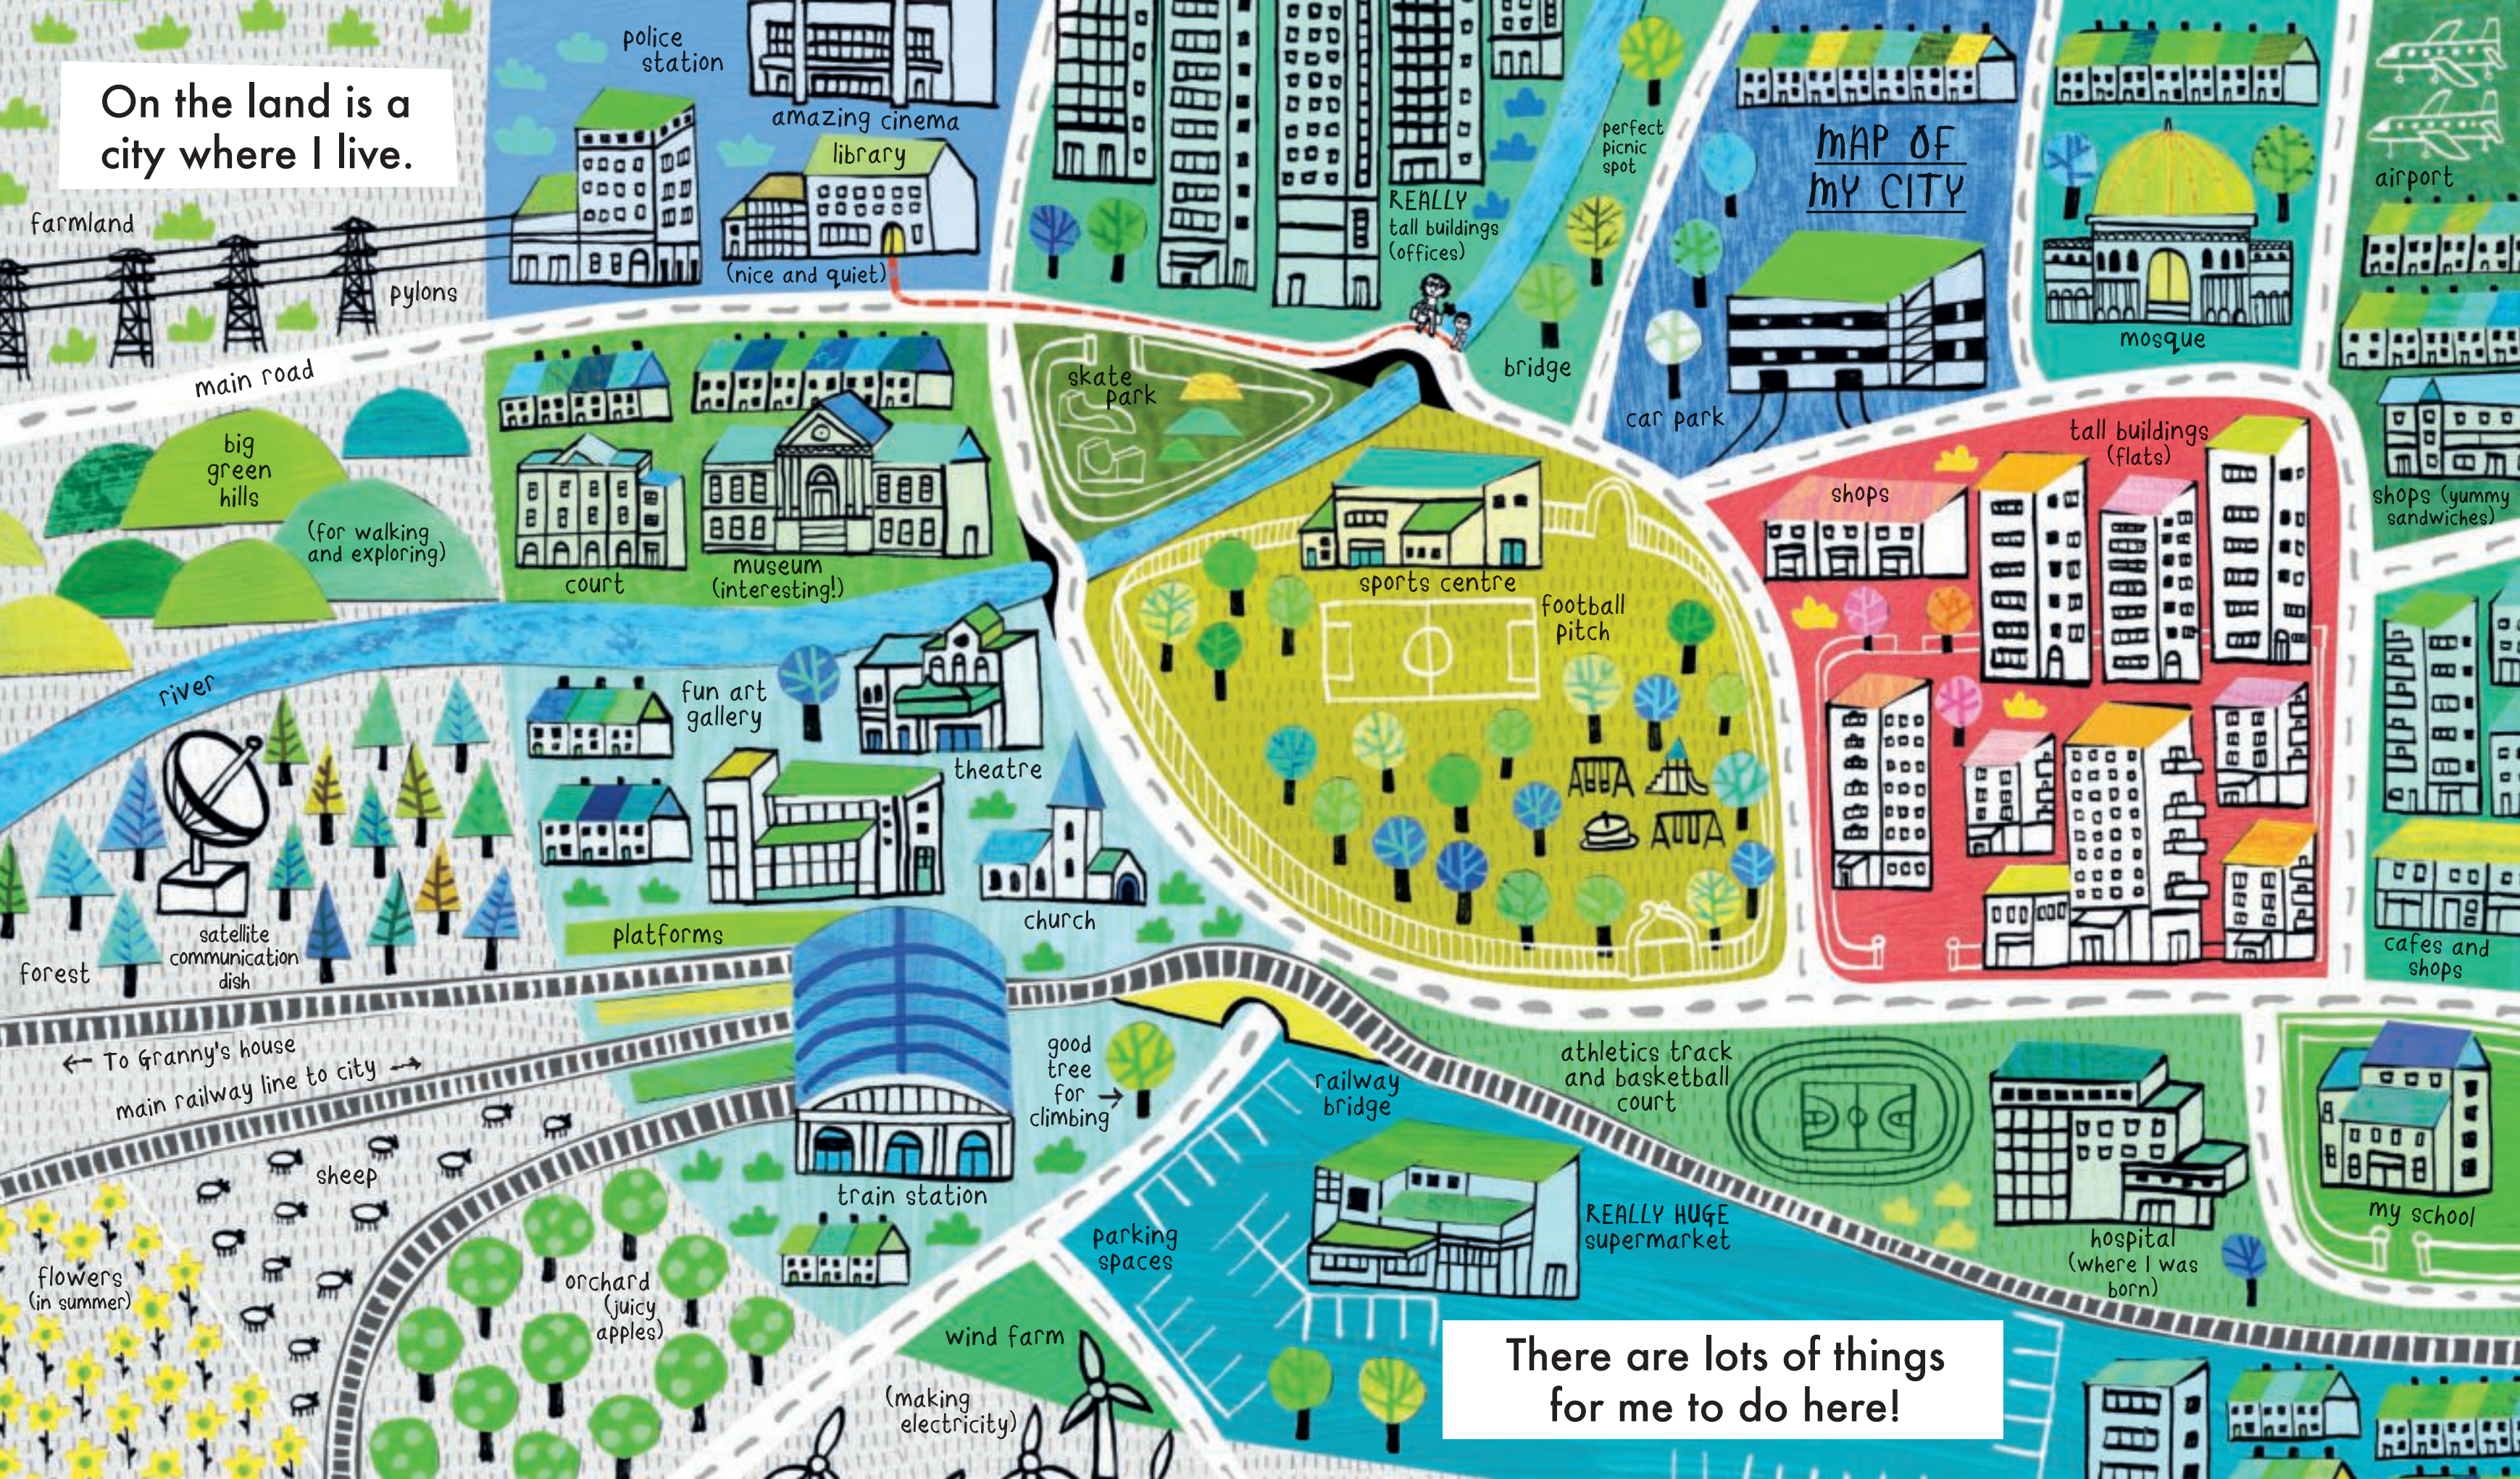

orca whale

## THE 7 CONTINENTS

- 1 NORTH AMERICA
- 2 SOUTH AMERICA
- 3 EUROPE
- 4 AFRICA
- 5 ASIA
- 6 OCEANIA
- 7 ANTARCTICA

Earth is a planet full of sea and land

On the land is a city where I live.

MAP OF MY CITY

farmland  
pylons  
main road  
big green hills  
(for walking and exploring)

police station  
amazing cinema  
library  
(nice and quiet)

REALLY tall buildings (offices)

perfect picnic spot  
bridge  
car park

mosque

airport

river  
forest  
satellite communication dish

court  
museum (interesting!)

skate park

sports centre  
football pitch

tall buildings (flats)  
shops

shops (yummy sandwiches)

← To Granny's house  
main railway line to city →

fun art gallery  
theatre  
church  
platforms

good tree for climbing

athletics track and basketball court

cafes and shops

cafes and shops

sheep  
flowers (in summer)

orchard (juicy apples)

train station  
parking spaces  
wind farm (making electricity)

REALLY HUGE supermarket

hospital (where I was born)

my school

There are lots of things for me to do here!
