① - the lego brick's trail

One snowy day, Dan
was building a
lego tower.

Dan didn't realise that the top piece of his tower had fallen off when he put it on his shelf. Later that day he realised it was missing.

I'm all alone and I'm never going to get back to the top of the tower.

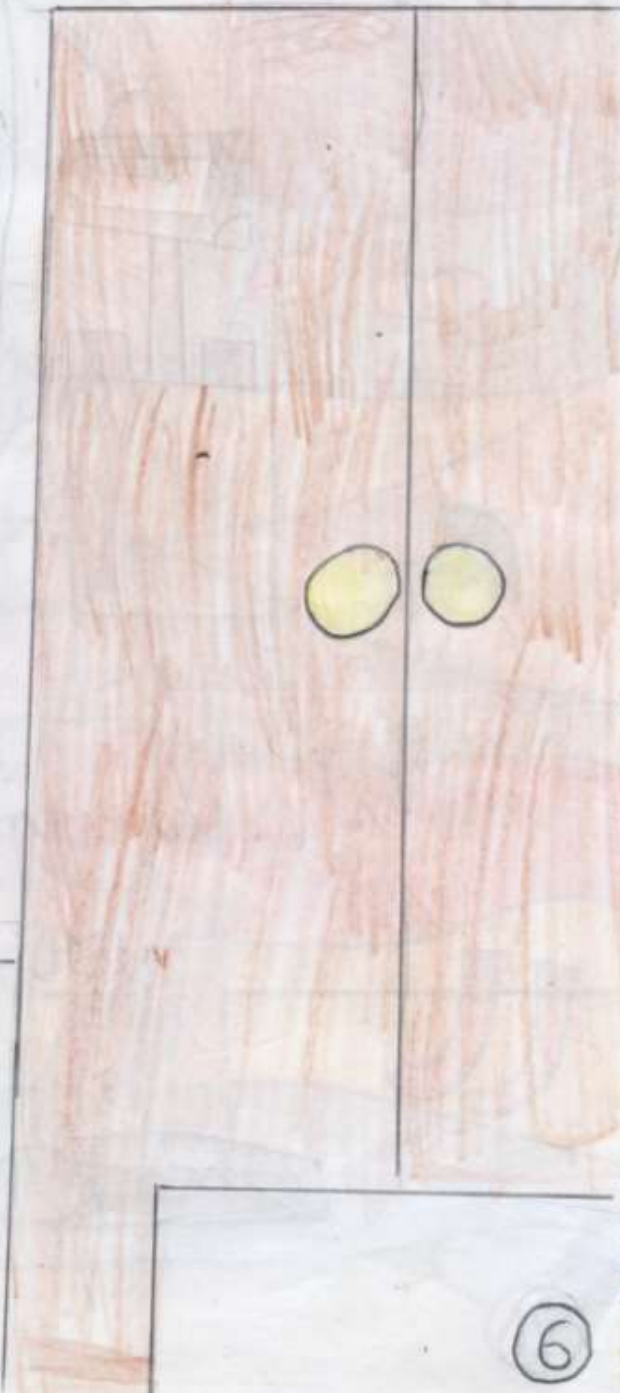

With help from the monster,
Ricky climbed to the top

Ricky the lego brick turned
round and saw
a giant monster peering back
at him.

The lego brick was played with and
played with until it was
knocked under
the cupboard.

Later that afternoon, mum was vacuuming.

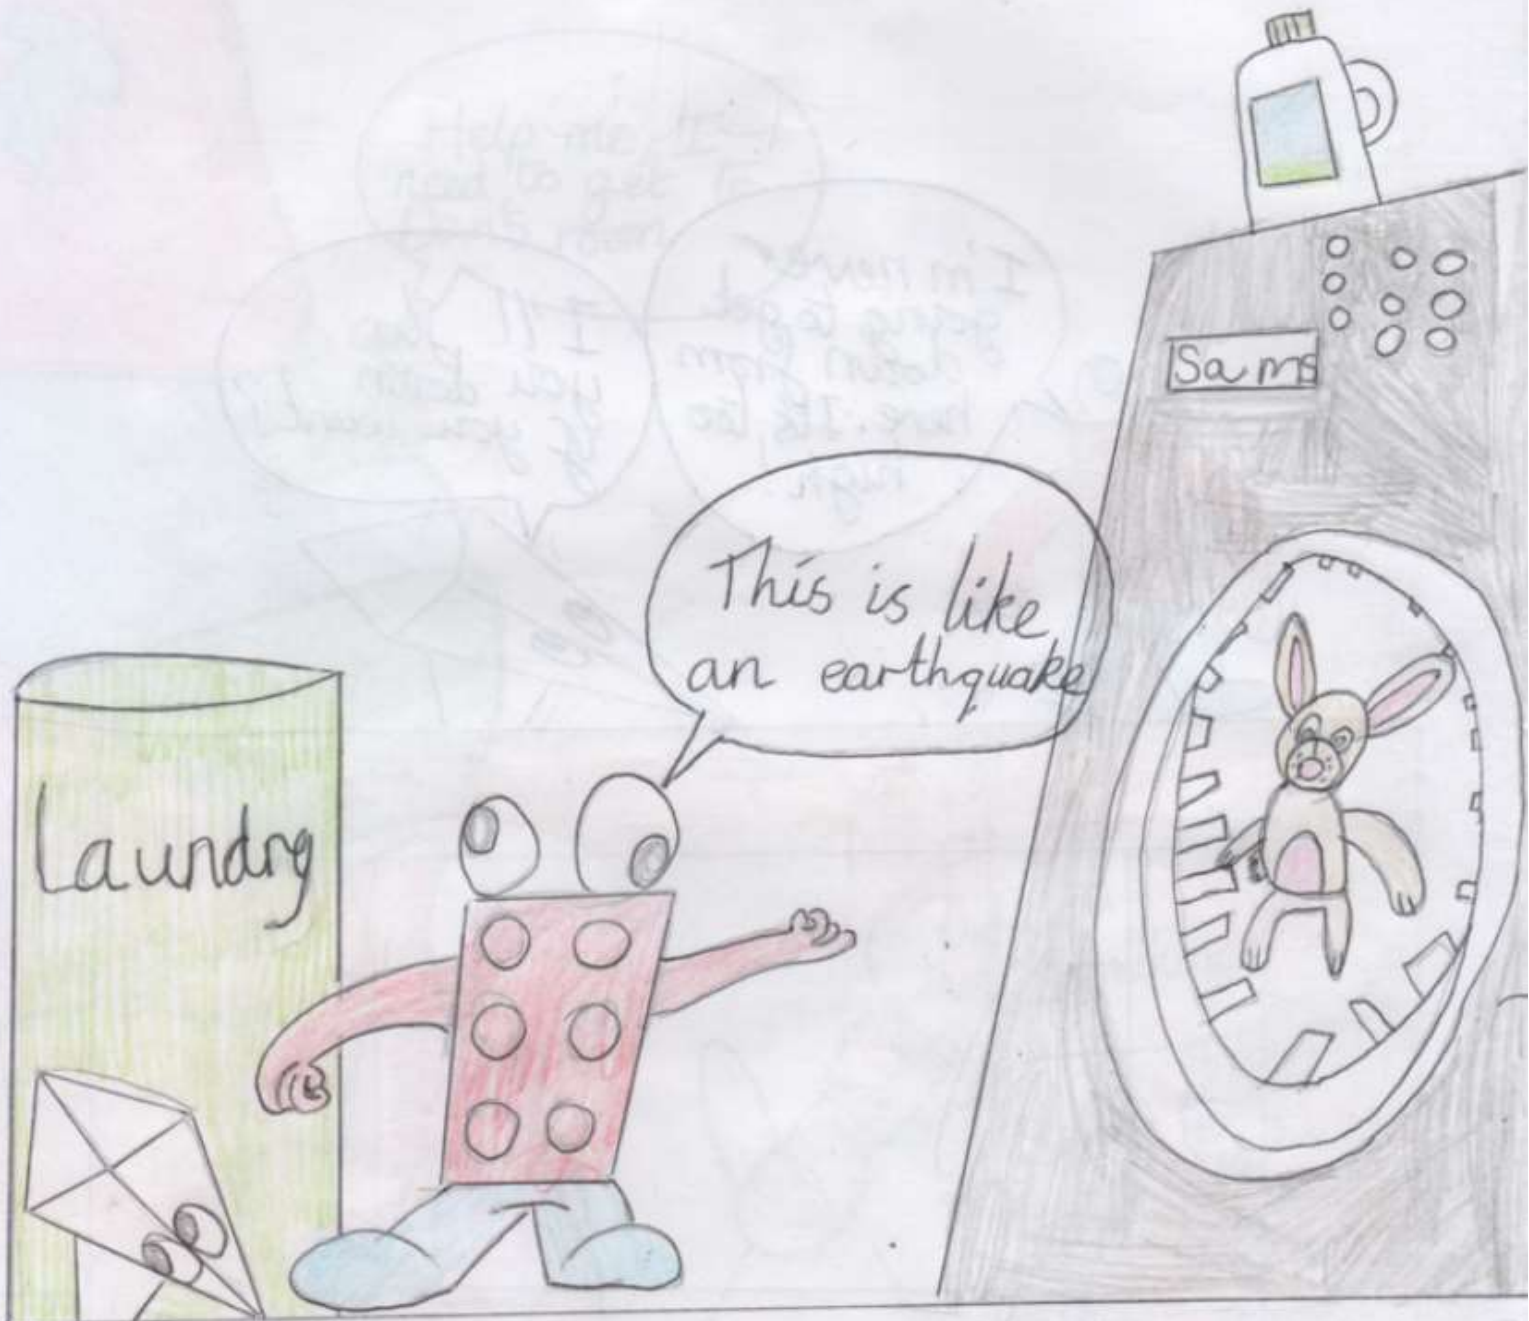

Dan will be sad if this brick gets sucked up.

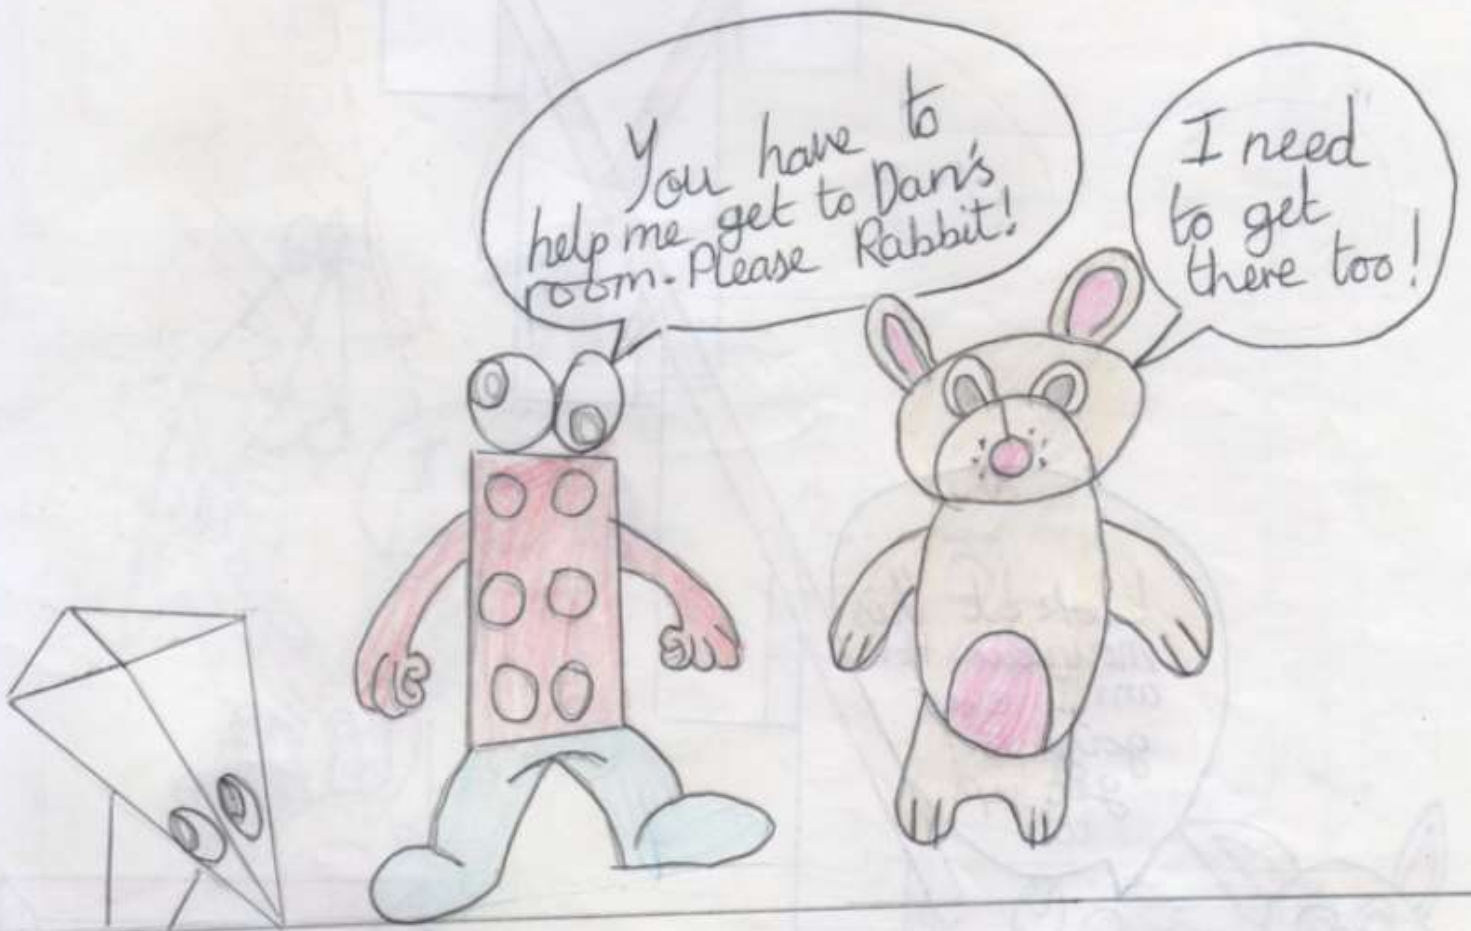

Richy the lego brick was able
to get a ride off
the table on a paper
aeroplane.

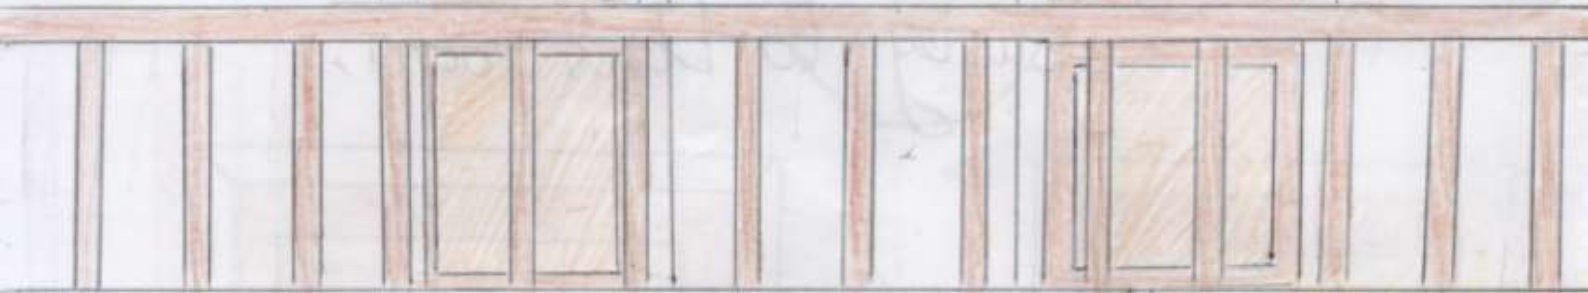

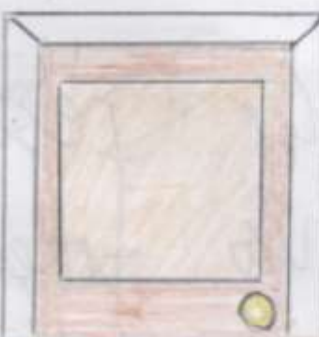

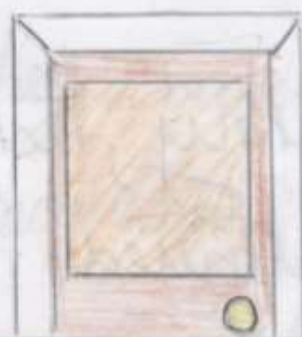

Richy wandered into another room,
but this one wasn't Dan's room either.

After rescuing Bunny, Richy and his friends continued their journey to Dan's room.

Finally they reached the top of the

They realised this wasn't Dan's room
but his sister's room instead.

They soon got lost and couldn't
find their way out.

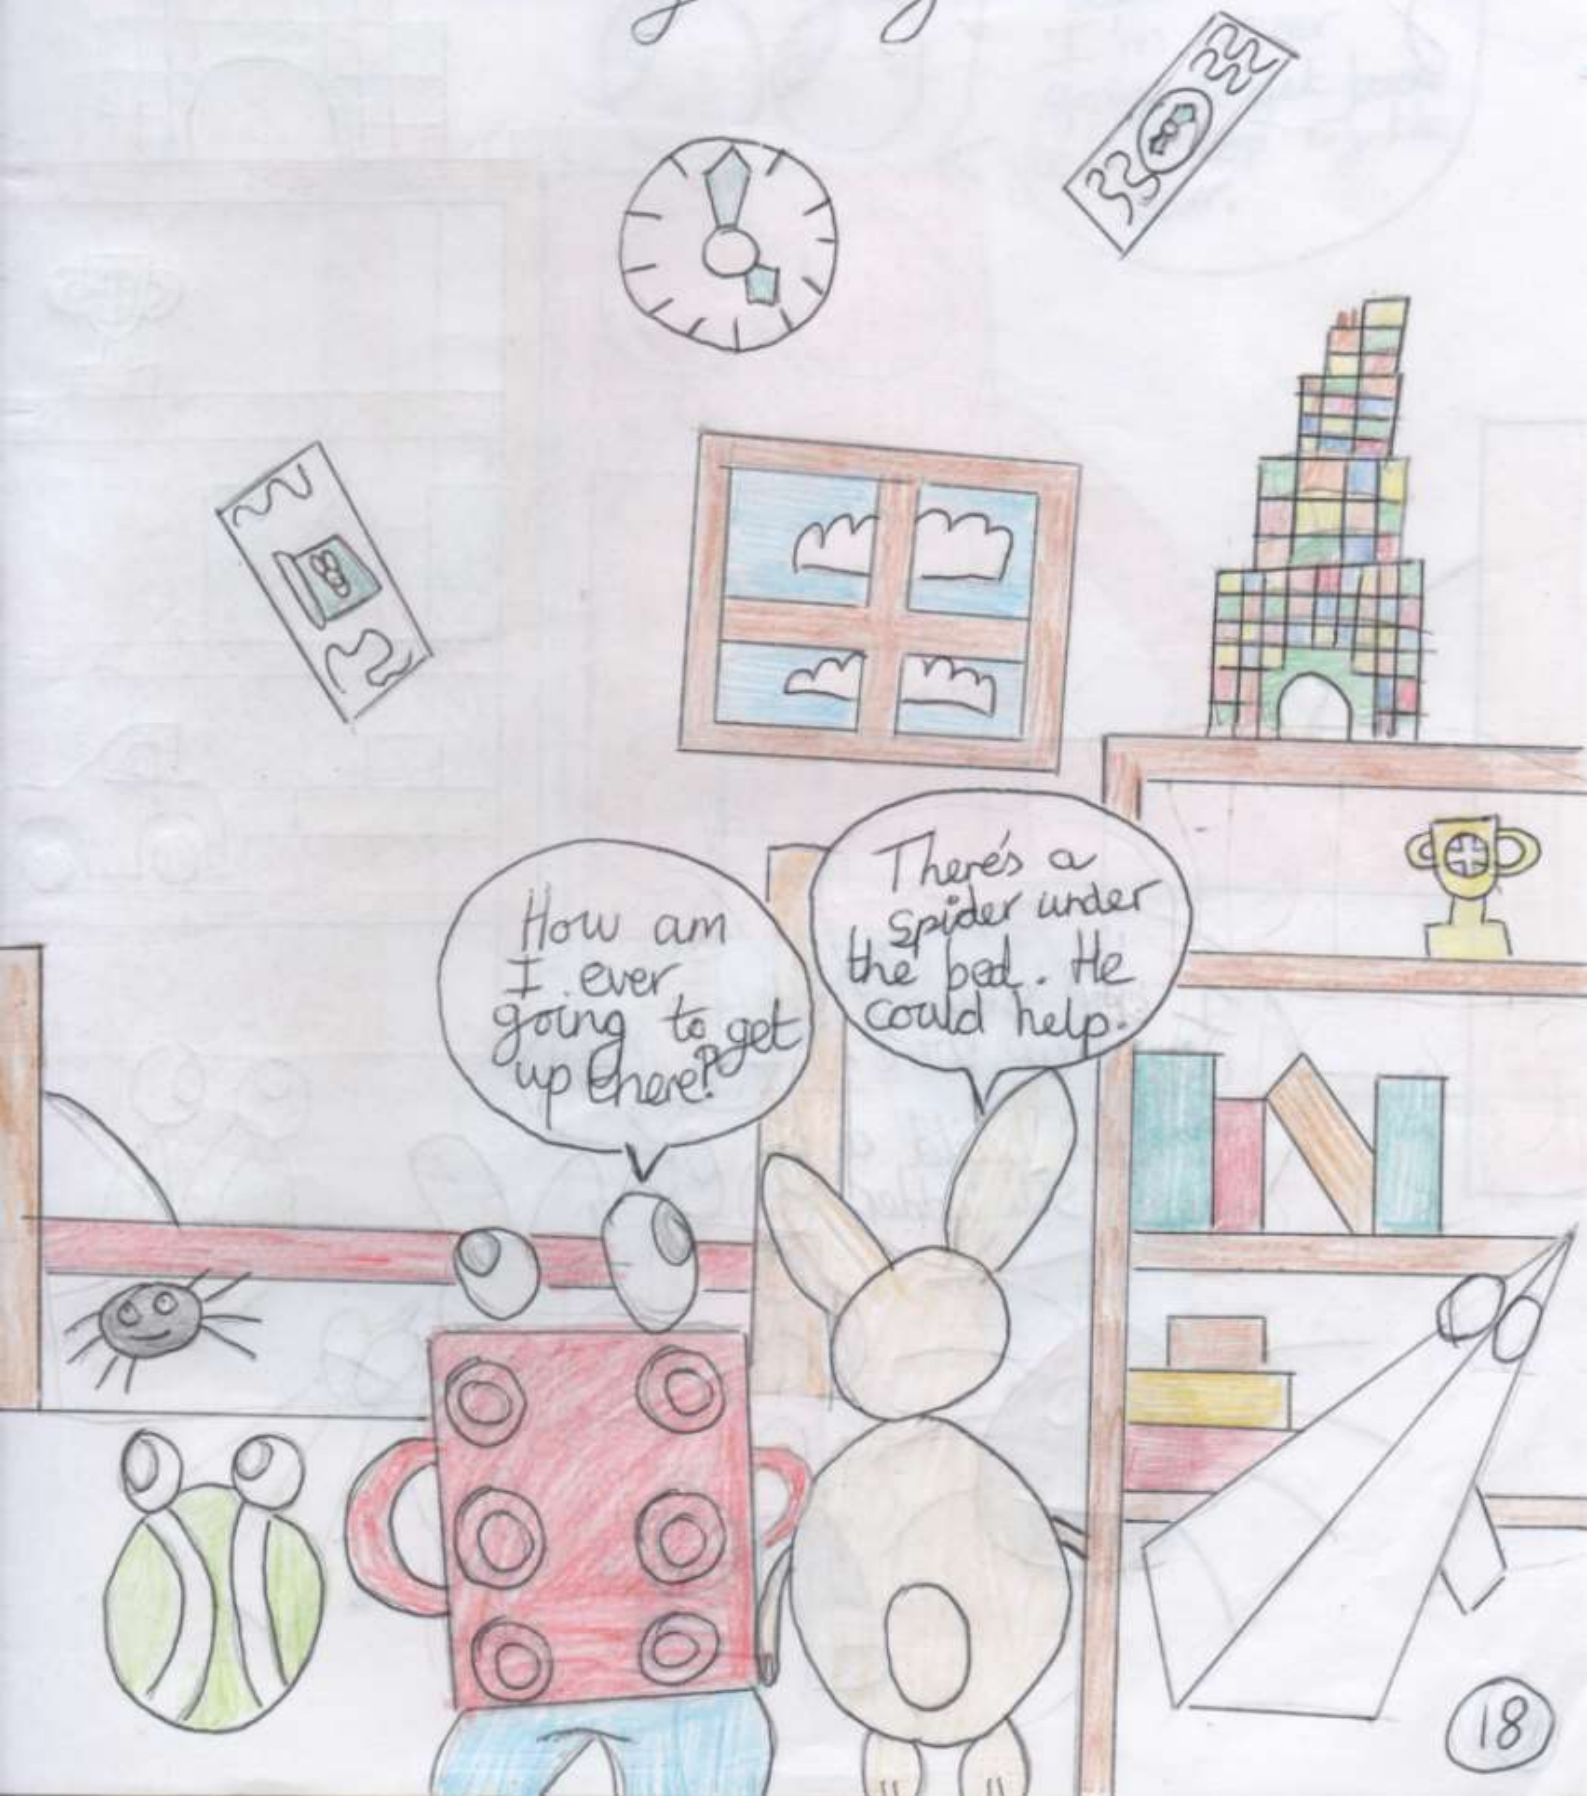

They finally got out and this
time they chose the
right door.

The right door has to be Darts room

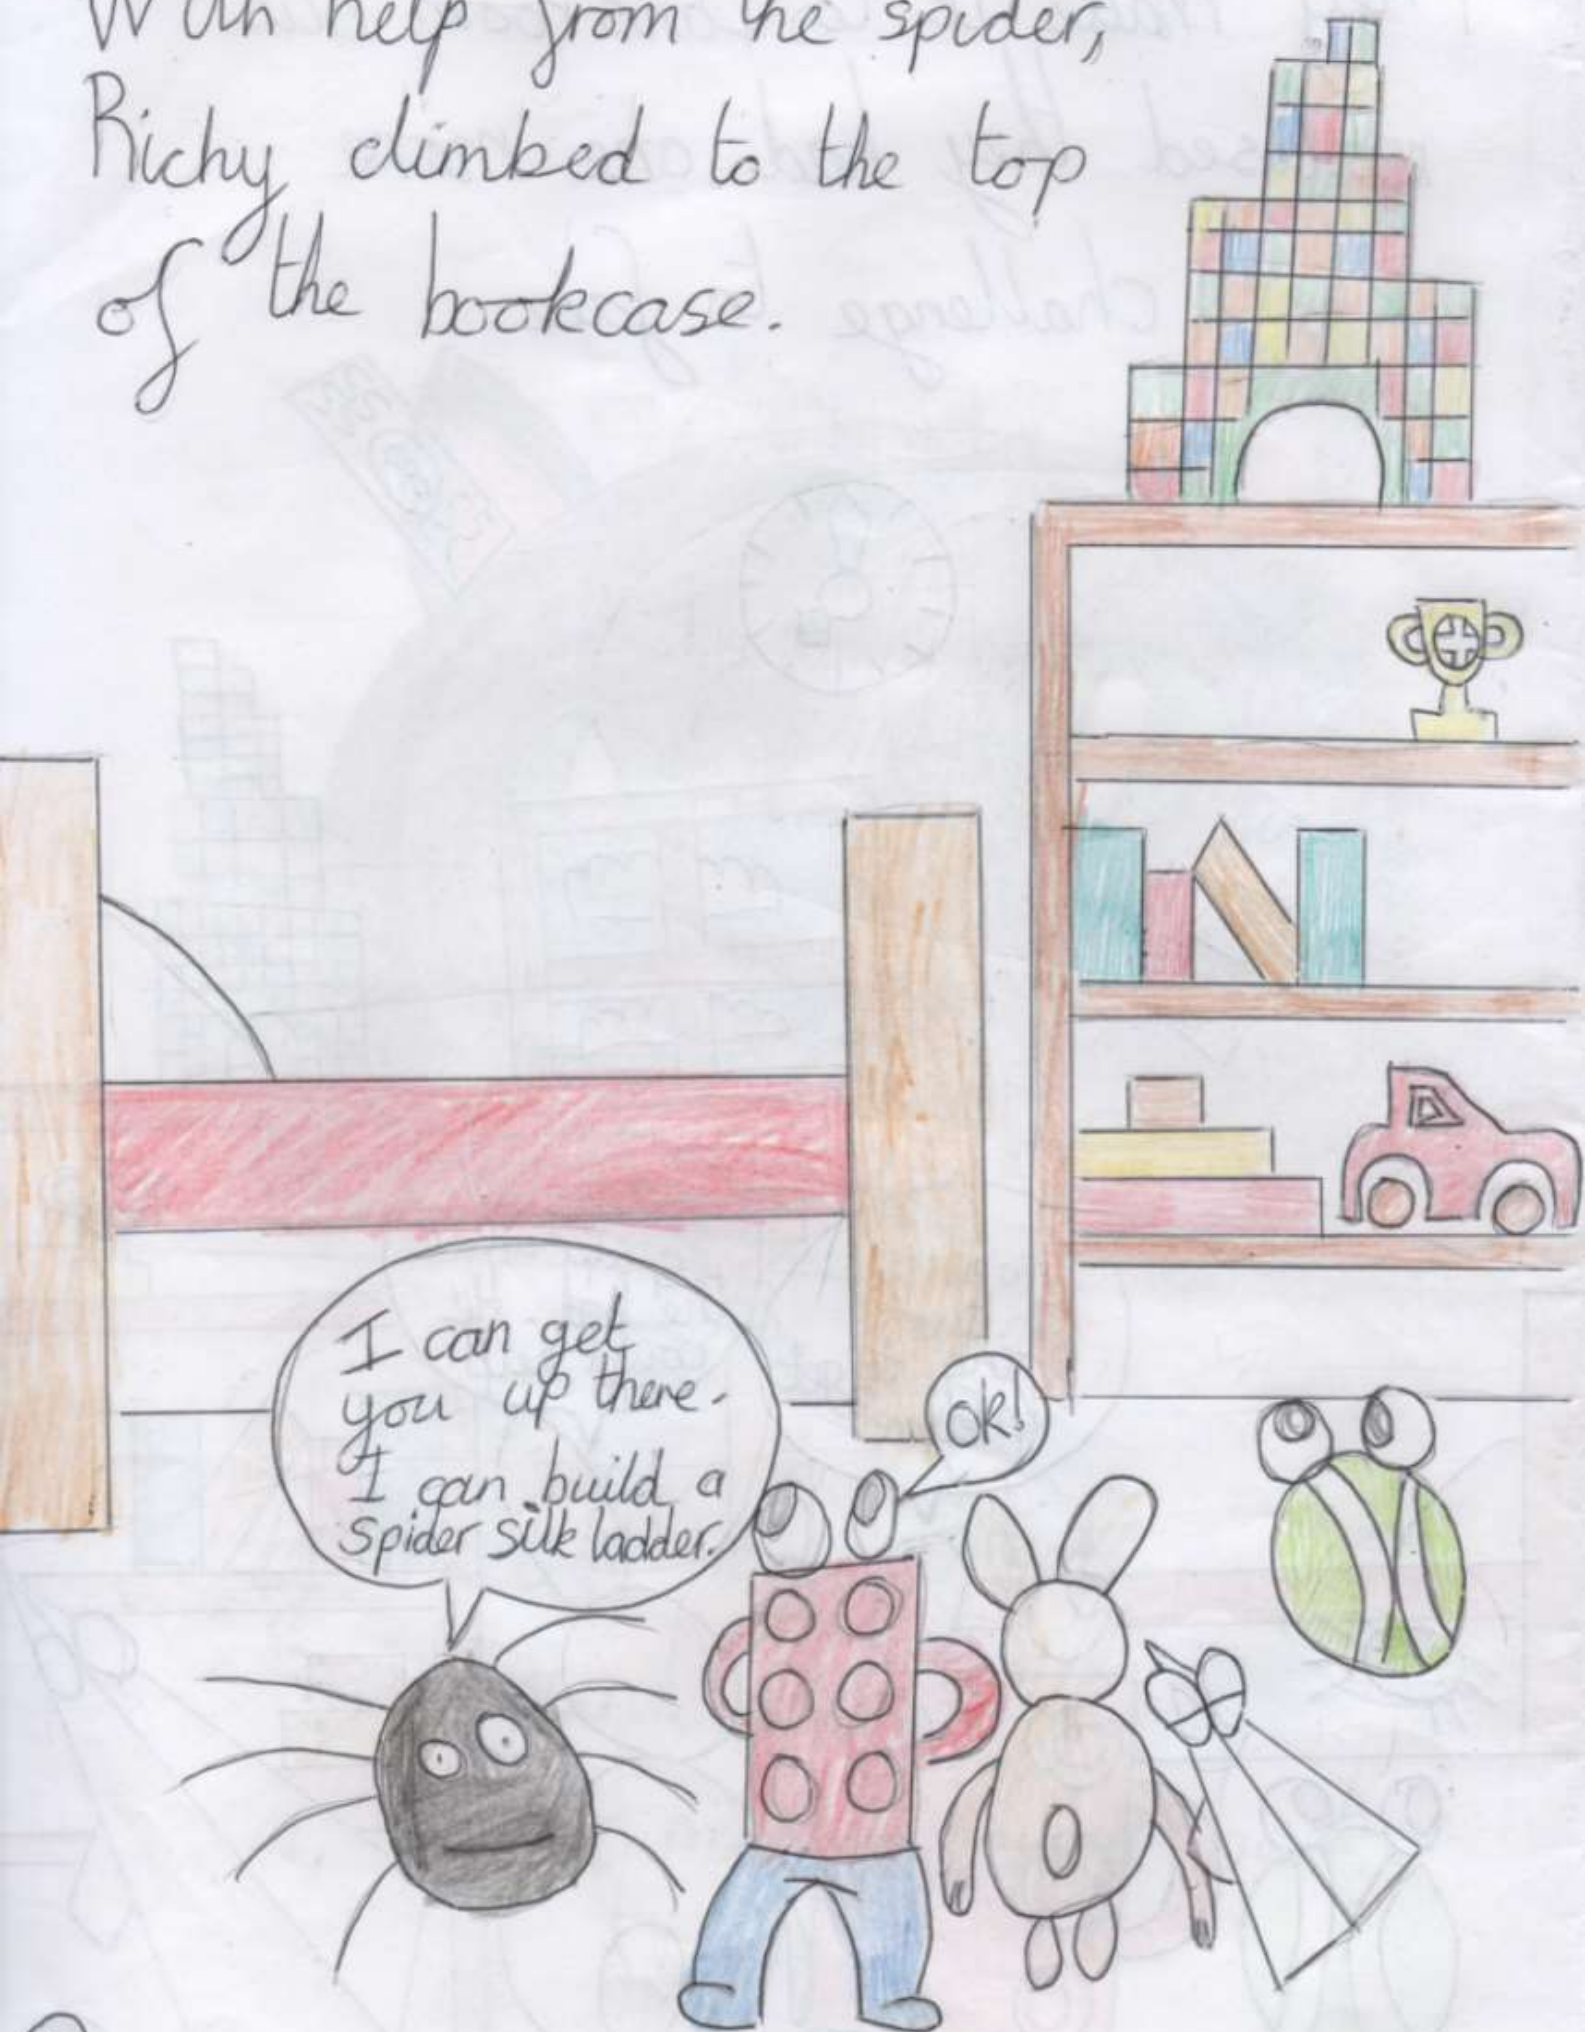

They made it to Dan's room but realised they had one more challenge to face.

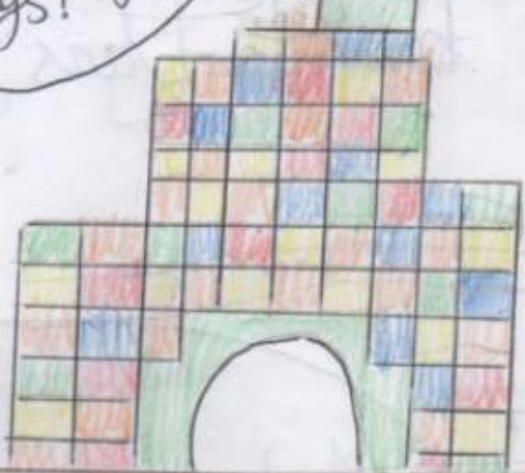

How am I ever going to get up there?

There's a spider under the bed. He could help.

With help from the spider,
Richy climbed to the top
of the bookcase.

I couldn't have done it without you guys!

At least these friends won't squish me.

I thought I would be lost forever!

I can sleep in a nice warm bed tonight.

I'm glad I have new friends.

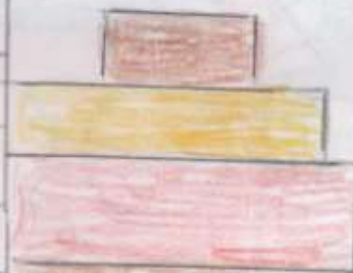

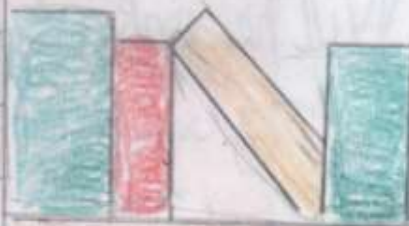

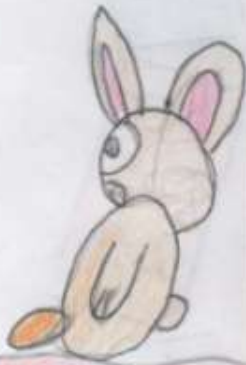

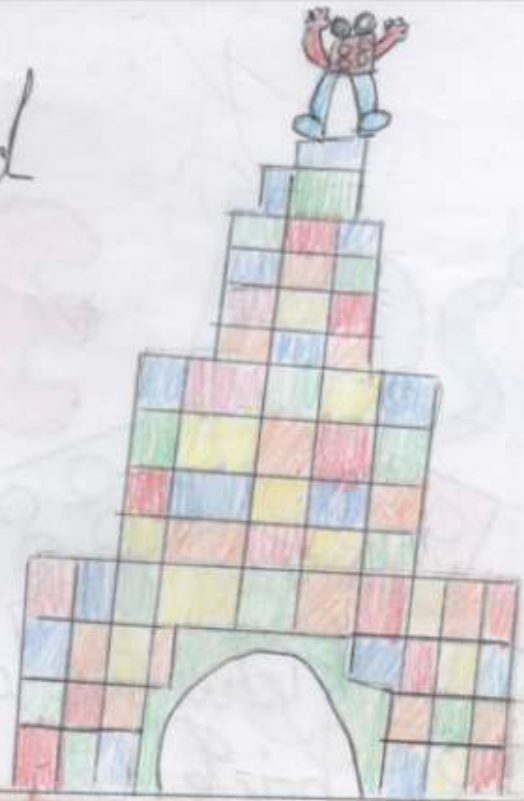

Richy, and all his new friends
made it back to Dan's room at last
